

NATIONAL INSTITUTE OF TECHNOLOGY MIZORAM

COMPUTER GRAPHICS LAB ASSIGNMENT

Name: NIRAJ KUMAR

Department: CSE

Enrollment No. : BT19CS031

1. Write a C- Program which generates pixel activation list for drawing the following simple two dimensional objects.

-> House

[\[Link to code on github\]](#)

```
// C program to draw a house using
// graphics.h library
#include <stdio.h>
#include <graphics.h>
#include<conio.h>
#include<iostream>
using namespace std;

// Driver Code
int main()
{
    // Initialize of gdriver with
    // DETECT macros
    int gdriver = DETECT, gmode;

    // Initialize structure of
    // the house
    initgraph(&gdriver, &gmode, (char*)"");

    // Create lines for structure
    // of the House
    line(100, 100, 150, 50);

    line(150, 50, 200, 100);
```

```
line(150, 50, 350, 50);
line(350, 50, 400, 100);

// Draw rectangle to give proper
// shape to the house
rectangle(100, 100, 200, 200);
rectangle(200, 100, 400, 200);
rectangle(130, 130, 170, 200);
rectangle(250, 120, 350, 180);

// Set color using setfillstyle()
// which take style and color as
// an argument
setfillstyle(7, 5);

// Fill the shapes with colors white
floodfill(131, 131, WHITE);
floodfill(201, 101, WHITE);

// Change the filling color
setfillstyle(3, 6);

// Fill the shapes with changed colors
floodfill(101, 101, WHITE);
floodfill(150, 52, WHITE);
floodfill(163, 55, WHITE);
floodfill(251, 121, WHITE);

// Print text on the Screen
outtextxy(180,230, (char*)" ( : Welcome To My New
Home : )");

getch();
```

```
// Close the initialized gdriver  
closegraph();  
return 1;  
}
```

```
